

THE ECONOMIC IMPACT OF
George T. Lewis Airport
(CDK)

Aviation's Benefit for Florida

Florida's economic well-being is intrinsically entwined with its vibrant airport system and its robust aviation industry. The aviation system in Florida allows the state to capitalize on an increasingly global marketplace. Aviation in Florida both sustains and leads economic growth and development. Airports in Florida are important economic engines, and support vital health, welfare, emergency, and safety-related services.

Florida's system of commercial service and general aviation airports are important to businesses throughout the state. Air travel is essential to tourism, Florida's number one industry. Protecting and investing in airports throughout Florida will support the aviation industry and the economic benefits described in this report. With continued support, Florida's dynamic aviation system will continue to provide a significant economic return in the years to come.

Florida's Statewide Benefits from Aviation

Florida realizes significant annual economic benefits from aviation. The Florida Department of Transportation completed a comprehensive economic impact analysis to measure these benefits. Benefits measured in the FDOT study considered direct and indirect economic impacts and induced impacts that result from the multiplier effect. A summary of Florida's annual economic benefits from aviation follows:

Impact Category	Total Employment	Total Payroll (BILLIONS)	Total Output (BILLIONS)
AIRPORTS			
VISITORS ARRIVING BY AIR	170,107	\$8.1	\$36.3
CONSTRUCTION AT AIRPORTS	765,225	\$20.7	\$67.2
MILITARY AVIATION	17,388	\$0.6	\$2.2
AIR CARGO	137,482	\$6.4	\$12.8
AVIATION EDUCATION	129,587	\$5.0	\$10.3
AVIATION BUSINESSES	11,891	\$0.5	\$1.0
FEDERAL AVIATION ADMINISTRATION	76,217	\$2.8	\$13.6
TOTAL ANNUAL ECONOMIC BENEFITS	4,534	\$0.4	\$0.6
	1,312,431	\$44.5	\$144.0

George T. Lewis Airport

Located in Levy County along the Gulf Coast, approximately 60 miles southwest of Gainesville, George T. Lewis Airport serves the general aviation needs of the local community. With its single 2,355-foot runway, the airport can accommodate small single-engine general aviation aircraft.

George T. Lewis primarily supports recreational/sport flying and visiting aircraft. The airport supports some business flights, flight training activity, military training operations, air ambulance flights, and search and rescue activity, but these are a small percentage of the annual operations. There are no on-site tenants at the airport.

The annual economic impact of George T. Lewis Airport is associated with direct impacts that come from operations at the airport and construction projects that are undertaken at the airport. Indirect impacts are associated with spending from visitors who arrive in the area via general aviation aircraft.
